Projects

Notice Hub

June 2023 to August 2023 (2 months)

- A Python Django-based web application designed to streamline communication within organizations.
- Notice Hub simplifies the process of sharing important announcements, news, and updates, enhancing internal communication efficiency.
- With an intuitive user interface, users can create, manage, and categorize notices effortlessly.
- The platform ensures timely dissemination of information, fostering a well-informed and engaged community within the organization.

Developer's Desk

Jan 2023 to July 2023 (6 months)

- An innovative freelancing website crafted using HTML, CSS, and JavaScript.
- Developers Desk serves as a dynamic platform connecting skilled freelancers with diverse projects.
- Seamlessly designed, it offers a user-friendly experience for both clients and freelancers, facilitating efficient collaboration and project completion.
- From web development to graphic design, Developers Desk empowers professionals to showcase their expertise and businesses to find the right talent for their projects.
